We had a wonderful gathering just before christmas with the central team. It was truly enriching to come together and to share our progress.

It was an excellent opportunity to discuss the challenges we've been facing, exchange new ideas, and reflect on the progress we've made so far. Looking forward to building on these insights and continuing our journey together!

Last but not least: we're happy to share that approvals in the other countries are nearly finalized, allowing us to begin start-up activities there very soon! ✨✨
